

# PRODUCT GUIDE

# The Dart Ad

The Dart Ad® is ideal for indoor and outdoor advertising. This patented product is custom-branded, lightweight and eye-catching. The Dart Ad® is available in three different sizes i.e. Large (2 metres), Medium (1.4 metres) and Small (0.4 metres).

It has three double-sided, wind-driven rotating panels, providing 6 printable surfaces. The Dart Ad® has a range of additional hardware options, including an indoor stand, outdoor spike, gazebo clamps and spinning wall mounts.

The Dart Ad® is a very unique banner by design. Its rotating motion draws attention to your brand. Several adaptations have been developed to allow the Dart Ad® to be used in different ways, thereby expanding your advertising options.

The Dart Ad® can be attached to gazebos using specially-developed clamps. The addition of movement in the form of the rotating Dart Ads® enhances visual impact of your gazebo.

The Dart Ad can also be mounted on walls at an angle using the newly modified wall mounts.

This means the Dart Ad can be used on shopfronts or buildings to draw attention by communicating your message in a unique way.

# Horizontal Banners

## Pop Right Open

### FEATURES:
